

10TH WORLD CONGRESS ON BREAST CANCER

November 06-07, 2023 at San Diego, USA

Welcome to the 10th World Congress on **BREAST CANCER**

After the grand success of nine years of breast cancer conferences, we solicit your gracious presence at the “10th World Congress Breast Cancer” which will be conducted during **November 06-07, 2023** as a hybrid event at San Diego, USA and virtually. The conference will emphasize the theme “*Novel Discoveries in Breast Cancer Research & Treatment*”.

Breast Cancer Congress 2023 is now opening a call for sessions, aiming to develop a program that brings together the very best of innovation and progress happening across the full spectrum of Breast cancer control, at national, regional and global levels. This is a unique opportunity for Breast cancer experts to share their knowledge and experience with the global cancer community, gain visibility and contribute to advancing breast cancer control.

It will feature invited keynote speeches, peer-reviewed paper presentations, and academic visits. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration. Network and collaborate are year-round with a global community of leaders who are working to advance Breast Cancer Research & Treatment.

Sincerely yours.

Richard Harris,

Program Director

CONFERENCE VENUE:

DoubleTree By Hilton San Diego
Address: 15575 Jimmy Durante Blvd, Del Mar, CA 92014,
United States

ABOUT SAN DIEGO

San Diego is a city on the Pacific Ocean coast of Southern California located immediately adjacent to the Mexico–United States border. With a 2020 population of 1,386,932,[9] it is the eighth-most populous city in the United States and the seat of San Diego County, the fifth-most populous county in the United States, with 3,286,069 estimated residents as of 2021.[13] The city is known for its mild year-round Mediterranean climate, natural deep-water harbor, extensive beaches and parks, long association with the United States Navy, and recent emergence as a healthcare and biotechnology development center. San Diego is the second largest city in the state of California after Los Angeles.

Historically home to the Kumeyaay Native Americans, San Diego has been referred to as the Birthplace of California, since it was the first site visited and settled by Europeans on what is now the U.S. West Coast.[14] Upon landing in San Diego Bay in 1542, Juan Rodríguez Cabrillo claimed the area for Spain, forming the basis for the settlement of Alta California 200 years later. The Presidio and Mission San Diego de Alcalá, founded in 1769, formed the first European settlement in what is now California. In 1821, San Diego became part of the newly declared Mexican Empire, which reformed as the First Mexican Republic two years later. California became part of the U.S. in 1848 following the Mexican–American War and was admitted to the union as a state in 1850.
